

The hall may appear isolated but there are several houses within a few yards and residents have been disturbed in the past. Please arrange to let off any fireworks **no later than 10pm**. If you have music for dancing or listening please consider the volume.

Reasonable volume as would be expected at a family dance or ceilidh is acceptable within the time limits below – noise above this level is NOT acceptable so please do not hire music that is liable to be above these limits as it will cause the venue to be closed

After 11pm, CLOSE all doors and windows. NO music is allowed after 12 midnight and all noise to be kept to a minimum. The hall must be totally vacated by 12.30 a.m. If an overnight let has been booked, there should be no noise between 12.30 a.m. and 7.30 a.m.
